Complimentary Professional Development for Educators Technical Assistance Program

LIVE VIRTUAL COMPLIMENTARY PROFESSIONAL DEVELOPMENT WORKSHOP VIA ZOOM

Autism Toolbox Series:

Challenging Behaviors

(for students with autism spectrum disorder & other needs)

Thursday, December 3rd, 2026

8:30-3:00 PM (All Day)

Presented by Margaret Wood, MA, CCC-SLP & TAP Consultant

People with autism spectrum disorder (ASD) exhibit many behaviors their family, teachers, and other supporters find challenging. What are the behaviors and ways of taking in the outside world that distinguish a person with an ASD from their "neurotypical" peers? Although these will vary according to the severity of a person's autism and their age and developmental level, there are core issues that affect most people with an autism spectrum disorder.

During this workshop, we will explore the following topics: understanding types of challenging behaviors and their impact, identifying the cause (function) of the behavior, responding to individuals at each stage of the Crisis Cycle, reducing and preventing problem behaviors via a plethora of visual and sensory tools, integrating positive behavioral support strategies in the classroom, and more.

The behavioral tools and strategies that will be presented will help educators support ALL students – with and without ASD.

This workshop is beneficial for ALL ages, grades, and developmental levels.

A survey will be posted in the zoom chat box at the end of the presentation.
You must complete the Survey to receive your Certificate of Completion.
