Complimentary Professional Development for Educators Technical Assistance Program

LIVE VIRTUAL COMPLIMENTARY PROFESSIONAL DEVELOPMENT WORKSHOP VIA ZOOM

The Art and Science of IEP Goal Writing:

Building Knowledge and Skills for Effective IEP Goal Development

Tuesday, December 8, 2026

8:30-11:30 AM or 12:00-3:00 PM

Presented by Chelsea Maher, M.Ed. , TAP Consultant

High quality IEP goals are legally sound, meaningful, data-based, and measurable. These form the core of a meaningful and effective individualized education plan, but getting there is both an art and a science! Special educators need specific knowledge and skills to compose high quality IEP goals in order to best serve their students.

In this training, special educators will learn how to:

- Define what makes a high-quality IEP goal
- Understand Federal and State requirements of IEP goals and related IEP components
- Write SMART IEP goals that are truly meaningful and data-based
- Discern which skills to include in IEP goals based upon data

A Survey will be posted in the zoom chat at the end of each presentation. You must complete the survey to receive a Certificate of Completion. You can join either of the PM sessions if you miss part of the AM session.
