Question 1:

What is the anticipated sales volume in a year for a successful bidder on the portable buildings portion of this contract? For year 2009, how much was sold thru CES?

Response 1:

CES does not know the anticipated volume for the first year of the contract. But with inclusions of ARRA and federal contract clauses this opens any contract awarded to used my more and varied funding sources then the current contract.

For the categories 1 through 3, the volume since July of 2008 is approximately \$1,300,000.00. This figure does not include shade structures, storage container or any activity under CES JOC program.
