Phone: 800-831-5904 ext. 3120

I have worked for Midwest since May of 1997. I am the bid contract manager and data entry supervisor. I also handle all aspects of Sales and Customer Service. I understand the needs of schools, including but not limited to delivery, installation and complying with various purchasing requirements. My area of expertise is working closely with teachers and the procurement department to ensure that we are meeting the district's expectations regarding price, order processing, problem-solving, delivery, and payment.

I am committed to achieving 100% customer satisfaction on a daily basis. I can offer you additional discounts for volume purchases. I know what the schools want, what they use, and what they need. I know where to get it, how to expedite its delivery and, when required, how to coordinate the installation. It's what I do all day, every day and I would love to help assist you. Give me a call or drop me an email. I look forward to working with you.

Our 500-page catalog showcases more than 10,000 products from 200 vendors. Call and order your copy today or view it on-line at midwesttechnology.com
