

# Complimentary Professional Development for Educators Technical Assistance Program (TAP)

LIVE VIRTUAL COMPLIMENTARY PROFESSIONAL DEVELOPMENT WORKSHOP VIA  ZOOM

## Data Driven Instructional Practices

Tuesday, April 7, 2026

9:00 – 11:00 am OR 12:30-2:30 pm

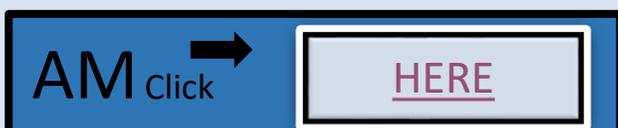

Presented by Dr. Michelle Perry, PhD, TAP Consultant

This learning experience equips educators with:

- Practical strategies to analyze student data to improve instructional decision-making
- A targeted focus on students with disabilities and students experiencing chronic absenteeism
- Tools to examine multiple data sources such as academic, behavioral, attendance, and progress-monitoring
- Ways to integrate interventions into responsive instruction
- Strategies to develop intervention plans, and classroom supports that increase access, engagement, and achievement

Participants will learn how to move beyond compliance-driven data collection toward meaningful, instructionally actionable use of data. Emphasis is placed on equity, inclusion, and instructional flexibility to ensure that data informs instruction.

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
