AUTISM TOOLBOX SERIES:

Classroom “Fixer-Upper”

Setting your classroom up for success!

Thursday, September 3rd, 2026

8:30 - 11:30 AM or 12:00 - 3:00 PM

Presented by Margaret Wood, MA, CCC-SLP

TAP Consultant

There's a growing consensus among experts that educating students with autism in specially designed classrooms improve their academic performance and social skills. But, how can educators create a classroom suitable for ALL students, including those with autism spectrum disorders (ASD) and other unique needs?

Together we will explore simple and inexpensive ways to improve your current classroom space, which will increase positive behavior and academic outcomes by:

- *Maximizing and dividing physical space into safe and functional areas*
- *Creating a sensory-friendly environment*
- *Utilizing existing classroom furniture effectively*
- *Classroom setup “hacks” (including easy and inexpensive quick tips)*

to create a calm & functional classroom to benefit all of your students and YOU!

This training is applicable to General Education, Special Education, and other interested staff.

The PM session is the same as the AM session.

A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
