VENDOR LISTING OVERVIEW

The following pages list CES Procurement Partners who have responded to and received an award for a public solicitation for goods and services to meet our Members and Participating Entities needs. Procurement Partners may have been awarded on one or more solicitations and, therefore, may have more than one contract listed. Awarded Procurement Partners are listed in alphabetical order and the following information is provided for each:

- Company Name
- Primary Company Address
- Contact information for the individual identified as the sales representative, including telephone numbers, fax number, email address and company web site, if available.
- Contract listing, which includes the contract number and description of solicitation. The following make up the contract number:

![New Contract Numbering System Diagram]

- Procurement Partners who have been awarded contracts to only provide their products and services in an identified CES Procurement Region will be indicated in the contract description, i.e. (Region 4). If no notation is made, they have been awarded all regions.
- General Procurement Partner overview providing a brief summary of the Procurement Partners’ areas of expertise.

For updated Procurement Partner and awarded contract information please call your designated Member Service Representative. (MSR contact information can be located on the back cover of the Bluebook)

ADDITIONAL SERVICES PROVIDED BY CES

In addition to procurement, Cooperative Educational Services provides a full range of services to support its Members and Participating Entities. These include:

- Ancillary Services (SLP, OT, PT, RT, SW, Psychologist, Diagnostician)
- Supplemental Employee Benefits
- Online Teacher Placement (NMREAP)
- Professional Services
- In-Service Training
- Annual Facility Managers’ Training Workshop
- Annual Educational Symposium
- Medicaid Third-Party Billing for School-Based Health Services
- Needs Assessments
- SITE Training
New Mexico is a large state geographically. For this reason, CES has divided the state into eight (8) procurement regions. CES asks respondents to solicitations to indicate in their response to which of these procurement regions of the State they wish to provide services. The eight procurement regions are described below:

**Region One (1)** – Aztec, Bloomfield, Central, Dulce, Farmington, Gallup-McKinley and Zuni School Districts; Navajo Preparatory School, Pine Hill Schools, San Juan College, Shiprock Associated Schools, and University of New Mexico - Gallup Branch

**Region Two (2)** – Chama Valley, Cuba, Española, Jemez Mountain School, Los Alamos, Mesa Vista, Pecos, Peñasco, Pojoaque Valley, Questa, Santa Fe and Taos School Districts; New Mexico School for the Deaf, Northern New Mexico College, Santa Fe Community College, Santa Fe Indian School, University of New Mexico - Los Alamos Branch and University of New Mexico – Taos Branch

**Region Three (3)** – Cimarron, Clayton, Des Moines, Las Vegas City, Maxwell, Mora, Mosquero, Raton, Roy, Santa Rosa, Springer, Wagon Mound and West Las Vegas School Districts; Luna Community College and New Mexico Highlands University

**Region Four (4)** – Albuquerque, Belen, Bernalillo, Estancia, Grants-Cibola, Jemez Valley, Los Lunas, Magdalena, Moriarty-Edgewood, Mountainair, Quemado, Rio Rancho, Socorro and Vaughn School Districts; Alamo Navajo School, New Mexico CYFD, New Mexico Institute of Mining and Technology, New Mexico State University at Grants, University of New Mexico and University of New Mexico - Valencia Campus

**Region Five (5)** – Clovis, Dora, Elida, Floyd, Fort Sumner, Grady, House, Logan, Melrose, Portales, San Jon, Texico and Tucumcari School Districts; Clovis Community College, Eastern New Mexico University and Mesalands Community College

**Region Six (6)** – Artesia, Carlsbad, Dexter, Eunice, Hagerman, Hobbs, Jal, Lake Arthur, Loving, Lovington, Roswell, and Tatum School Districts; Eastern New Mexico University-Roswell, New Mexico Junior College, New Mexico Military Institute and New Mexico State University at Carlsbad

**Region Seven (7)** – Alamogordo, Capitan, Carrizozo, Cloudcroft, Corona, Hondo Valley, Ruidoso, and Tularosa School Districts; Mescalero Apache School, New Mexico School for the Blind and Visually Impaired and New Mexico State University at Alamogordo

**Region Eight (8)** – Animas, Cobre, Deming, Gadsden, Hatch Valley, Las Cruces, Lordsburg, Reserve, Silver and Truth or Consequences School Districts; New Mexico State University and Western New Mexico University

Note: CES utilizes the public school district service areas to identify each of its procurement regions. Other public educational institutions such as charter schools, community colleges, colleges and universities, BIE schools and Participating Entities are considered to be in the region of the public school district where their institution is physically located. A listing of CES Members and Participating Entities may be viewed by going to www.ces.org.
What is the process for ordering through CES?

Select Procurement Partner (Vendor) from CES Blue Book;

Contact Procurement Partner and request quote based upon their CES contract;

Create Purchase Order (PO) to CES, referencing selected Procurement Partner; and

Send PO and quote to CES (via email to po@ces.org).

CES will check pricing against our contract, verify all required paperwork has been received from Procurement Partner and issue PO to Procurement Partner from CES.

Procurement Partner will provide services to Entity and will invoice CES.

CES will invoice Entity.

Entity will pay CES.

CES will pay Procurement Partner.

For any other questions regarding doing business with CES, please contact our Business Office (505) 344-5470 or your Member Service Representative.
Additional Purchasing Information

There are three ways to use CES’ Cooperative Procurement. 1) Select an appropriate Procurement Partners/Vendors listed in our Blue Book alphabetically by Vendor name, or the products, services, or construction listed in the Index as needed. 2) Order online directly with available Vendors that are listed in the ‘Online Ordering’ section below. These Vendors display a computer icon by their name in the Blue Book. 3) Food items can be purchased from our selected companies by issuing a blanket purchase order to CES and then ordering directly from the food vendor.

CES SNAP

Online Ordering is a SNAP through CES

CES now has a marketplace where you can log in, choose a vendor, shop, and compare prices. Check out and be invoiced directly by the vendor. Get started today! Contact Robin Strauser or Lori O’Rourke 505-344-5470.

BSN Sports/US Games/Varsity Brands
CDWG, LLC

Staples Contract & Commercial, LLC
Technology Integration Group
Troxell Communications, Inc.

Online Ordering

CES’ online procurement option allows its Members/Participating Entities to place orders with selected vendors for school, office, art, science, janitorial, industrial, maintenance and computer supplies, computer equipment, printers, accessories, software, A/V equipment, etc., in a faster and easier way than through the traditional procurement method! CES Members/Participating Entities can go online and order directly from designated online vendors. If you want to use this option, you will need to contact the vendor to get set up on their system under the CES contract.

Orders are processed and shipped through their regular channels. The vendor will invoice your organization directly. (Note: The CES administrative fee is included in the invoice price.) The following are the current CES authorized online vendors. Please contact the vendor’s sales representative for details.

Officewise Furniture & Supply
BSN Sports/US Games/Varsity Brands
CDWG LLC
Childcraft Education Corp/School Specialty, Inc.
Frey Scientific/School Specialty, Inc.
Sax Arts & Crafts/School Specialty, Inc.
School Outfitters
Sportime/School Specialty, Inc.
Staples Contract & Commercial, LLC
Troxell Communications, Inc.
Food Purchasing

Utilization of the food contract from CES eliminates the administrative functions and time required for bid preparation, solicitation, advertisement, evaluation, and award process while leveraging the purchasing power of cooperative procurement. It reduces the time required by a food service director or manager to perform these functions, resulting in time and labor savings for our members. The ultimate goal of CES Food Procurement is to provide to its Members and Participating Entities the opportunity to acquire quality food at the best possible cost.

Food contracts are for an initial one-year period with 90-day price adjustments, contract expiration and any extensions are specified in the applicable RFP; additionally, milk prices are adjusted monthly and produce prices are adjusted weekly. Bid items reflect the needs and wants of the end user – the Members’ food service department. Nutritional data is supplied by the vendor to CES and is available for any of the Members in preparation of nutritional data books required by the USDA Student Nutrition Meal Programs.

Participating Entities

In accordance with the terms and conditions of its JPA, CES Board Policies and the New Mexico Procurement Code, CES has established another group of user agencies called “Participating Entities,” utilizing a cooperative purchasing agreement. This agreement allows local public bodies and public agencies to take advantage of CES’ cooperative purchasing program. There is no application fee for the entity; no annual membership fee for the entity; and there is a 1.25% administrative fee embedded in the vendor’s contract price.

The CES JPA provides for cooperative procurement in accordance with the New Mexico State Procurement Code 13-1-135 NMSA 1978. The procurement code authorizes local public bodies and state agencies to take advantage of cooperative procurement through the CES JPA. While membership in the JPA is limited to public educational institutions, the Board Policy provides for non-member Participating Entities to use CES’ programs. The following entities are allowed to enter into a Participating Entity agreement with CES.

A. **Federal Agency** [25 USC 3001 (4)] is defined as any department, agency, or instrument of the United States, any executive department, military department, government corporation, government-controlled corporation, or other establishment in the executive branch of government, including the Executive Office of the President or any independent regulatory agency established through legislative and/or administrative action.

B. **State Agency** [13-1-90 NMSA 1978] is defined as any department, commission, council, board, committee, institution, legislative body, agency, government corporation, educational institution or office of the executive, legislative or judicial branch of the government of this state. "State Agency" includes the purchasing division of the General Services Department (GSD) and the state purchasing agent but does not include local public bodies.

C. **Local Public Body** [13-1-67 NMSA 1978] is defined as a political subdivision of the state and its agencies, instruments and institutions thereof, including: two-year post-secondary educational institutions, school districts and local school boards and municipalities, except as exempted pursuant to the Procurement Code [13-1-28 NMSA 1978]

D. **Non-Profit, Non-Public Educational institutions and other Non-Profit Organizations (Section 501(c)(3) of the Internal Revenue Code, Federal Tax Code)** is defined as charitable, religious, educational, public service, support and scientific organizations, entities, corporations that qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code, or corresponding section of the Federal Tax Code.
The Procurement Code (Sections 13-1-98.A and 13-1-135) states that Cooperative Procurement is authorized and exempt from the Procurement Code as stated below:

Any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved (11-1-1 to 11-1-7 NMSA 1978).

CES is formed by the Revised and Amended Joint Powers Agreement to Establish an Educational Cooperative (JPA), which specifically authorizes cooperative procurement. Every public-school district in the State, as well as many universities, two-year colleges, charter schools, BIE schools, and state educational institutions, are parties to the JPA as entered by the governing body of each party. Membership is open to all public educational institutions in New Mexico. Each Member receives a copy of the JPA, CES Board Policy, and CES Procurement Guidelines.

YOUR INPUT COUNTS! CES issues several multi-category RFPs each year to make procurement easier and more cost-effective for its Members and Participating Entities. The categories CES specifies in its solicitations are, in part, a product of input received from our Members and Participating Entities. If something you are looking for is not listed in the CES Blue Book, please call us. CES will make every effort to include your requested products and services in its RFP cycle. Remember that purchasing utilizing CES contracts streamlines your procurement process and provides you with legal compliance, lower prices, and saves invaluable time. The more our Members/Participating Entities use CES contracts, the more purchasing power CES gains in obtaining better future discounts from vendors for our Members.

CES invites and encourages its Members and Participating Entities to participate in the CES solicitation process. This allows the end users to have a say in the types and levels quality of products and services offered as well as the vendors that are awarded contracts through CES’ procurement program. If you are interested in volunteering to serve on an evaluation committee, or would like more information, please let us know by contacting CES’ procurement office.

TexBuy External Procurement Agreement: Cooperative Educational Services (CES) has an External Procurement Agreement with Region 16 Education Service Center (TexBuy), located in Amarillo, Texas. This allows vendors under TexBuy contracts to supply products or services to schools in both states at the same cost. Through this Agreement, CES Members get the volume discount afforded by combining all Member institutions’ purchasing power in both states.

AEPA: Twenty-seven educational service agencies across the United States have joined to form the Association of Educational Purchasing Agencies (AEPA) to produce one collective Invitation for Bid (IFB), in selected categories, each year. From this IFB, a potential vendor prepares one response for approval by AEPA and award by Members may be used throughout the country. Through this single IFB, selected vendors are then able to provide their products and services to agencies serving more than 22 million students.
### CES CONTRACT SUMMARY

The list below indicates existing contracts and their expiration dates. Contact the CES Procurement Department for up-to-date information on solicitations.

We recognize the importance of continual professional development and installation for audio/visual equipment, and as such, the experience and services we provide can help minimize the costs of upgrading technology by designing projects to evolve. At AiSYS AV Integrated Services, we will always do our best to make certain that the services and advice we offer will help clients see that their audio and visual needs become solutions through efficient, effective, and innovative results. We have no doubt that we can accomplish this thanks to the 75 years of combined experience our team possesses. At AiSYS, we can help you reach your expectations through Audio/Visual Design, Consultation, Project Management, Installation, Support Services/Customer Support, and Professional Development/Training. We offer the same attention to detail and passion for what we do to each client. By pulling together our resources to execute new construction, relocation, and renovation projects to ensure a completed development within a conservative timeframe and within budget, we know that we have reached your expectations. As independent consultants, we can specify the equipment that best fulfills your requirements and needs.

At Alpha Building Corporation, we construct, renovate, and maintain institutional and public facilities. Since 1969, we have established and cultivated long term relationships with clients that allow us to meet their individual construction and construction support service needs. As a pioneer of the job order contracting (JOC) delivery method, Alpha excels at JOC and renovation/remediation like work. Our headquarters may be in San Antonio, Texas, but we maintain local offices where we perform our work. We are where you are. At Alpha, we take pride in the work that we do and believe it contributes to something much bigger, that the environments we create facilitate people to achieve great things.

We started small. Garage-small. Just two brothers and an inventor fueled by the desire to make the world a safer place. And then we grew, with hard work and that same drive, into an expansive technology company that delivers public safety’s most trusted network of devices and apps. In April 2017 we changed our corporate name to Axon, after many years of operating as TASER International. Our mission to protect life endures, but we’re going about it in new ways—with Smart Weapons that protect life in the moment of conflict, cameras that depict the truth and help prevent civil unrest, and automated reporting and evidence management that will triple the amount of time officers can spend serving their communities. Today, more than 17,000 law enforcement agencies in 100+ countries around the world are part of the Axon network.

Bloomboard offers two sets of tools and resources to help teachers grow: (1) An online platform to facilitate the educator observation and evaluation process (www.edreflect.com) and (2) An online platform offering competency-based professional development programs with micro-credentials to improve instructional practices, content knowledge, and classroom management skills (www.bloomboard.com). Micro-credentials are modular, competency-based credentials for professional learning that recognize demonstrated mastery of skills and prior knowledge. Because micro-credentials address the achievement of competence at the individual skill level, they can be assembled into cohesive groups that equate to important distinctions in an educator’s career, such as qualification for compensation and/or career advancement, even formal certifications and licensing.

Brycon was founded in New Mexico in 1990 to satisfy a market need for specialized cleanroom construction. Over two decades ago, Brycon leveraged its expertise in critical environments and expanded into general contracting for education, manufacturing, healthcare, and other commercial clients. We perform projects requiring tenant improvements, demolition, renovations, and new construction. Our commitment to safety is reflected by a low EMR and continued partnership with OSHA. No matter the project, safety always comes first. Clients who need fast-tracked projects on occupied campuses turn to Brycon for a safe, more efficient, better-quality build. We help our clients achieve project goals with less stress. Our practice of providing solutions and creating value results in long-lasting relationships.

As one of the nation’s premier HVAC service and installation providers, CSUSASW can help you reduce owning and operating costs for one facility or dozens. Not being a manufacturer of HVAC equipment, CSUSASW is expert in the service and installation of all the major manufacturers. Our diverse talent provides you the competitive advantage of a partner that understands, installs, and services your entire building system. Most of our work is with repeat Customers over the span of many years. We greatly appreciate these long-term, trust-based relationships – and why we continually strive to improve our services and methods.

Since 1990, ETI has provided customized cost-effective IT solutions to schools throughout the state of New Mexico. Our reputation for delivering on promises and exceeding customer expectation are qualities that set us above other vendors in its field. The manufacturers and top-tiered vendors we partner with are world renowned for quality and service. Our commitment to helping schools to strengthen their IT infrastructure enables educational entities to learn more about technology and use it to broaden reach to students and enhance curriculum. Many companies offer services to customers. ETI offers a wide variety of services with focus. Our experience and training make us a leader in network technologies and software platform engineering expertise for systems like Cisco® and Microsoft®. We are always advancing our knowledge base through regular training and in-depth involvement with the manufacturers we represent. Education Technologies considers customer service to be the most crucial element throughout every stage of a sale. Our team is here to provide immediate answers to questions regarding orders, shipping and returns from 7:30 A.M. to 4:30 P.M.

Four decades ago, in 1971, the founders of LegalEASE pioneered the development of a group-based legal plan in one of the first ever legal plans. Since that time LegalEASE has created and sold a number of different insurance legal plans and today the LegalEASE legal plan has grown into one of the most developed fully insured legal plans in the employee market today. The LegalEASE legal plan
provides fully insured group legal services to employers throughout the United States. We have thousands of employees that have elected the LegalGUARD legal benefit.

LegalShield National Plan is a comprehensive, affordable legal solution for your employees. With LegalShield, you get legal help, not a huge legal bill. As a LegalShield member, participating employees get access to attorneys with an average of 22 years of experience. Participants speak with an attorney in their area that can assist with the exact type of law for which they need help, and their calls will always be returned in four business hours or less. Because our law firms are prepaid, their sole focus is on serving our participants, rather than billing them. Instead of paying a lawyer expensive hourly fees, participants pay a small monthly fee and get access to experienced attorneys that can help them with any legal issue.

OfficeWise is an industry leader in the K-12 education FF&E marketplace. Through our creative designs and implementation of the best of the best products, we will define spaces that create a place that promotes movement, inspires collaboration and supports the pedagogy and chosen curriculum of our school partners. The result: our school partners are becoming a platform where children can tap into their gift areas and develop and cultivate those gifts. OfficeWise working closely with our school partners impacts thousands of school-age kids a year. Let us join you in helping our kids thrive.
Officewise is an independent dealer that provides office/classroom supplies and furniture products. Our capabilities include online ordering, local deliveries and customer service. We have locations in Amarillo, Lubbock and Midland, Texas, however our delivery areas include much of New Mexico.

19-035N-AB02-ALL  Playground & Recreational Equipment

At Playcraft Systems, we find play crucial in a child's life. It not only serves as a physical challenge, but also provides an area for them to develop their cognitive skills, make new friends, and expand their imagination. However, even though a playground is a great resource of play for children, it also serves a larger purpose. A well-developed playground can help bring communities together. It provides a safe location that families gather, interacts, and make new bonds.

Sagecore Technologies can provide and help you implement Tetricor. Tetricor is a dynamic enterprise system. Because Tetricor is a dynamic system built on engines, it can be implemented as a 1 to 1 match to your exact processes and operations. If it is CRM, Inventory, Finance, CMS (Enterprise Websites), Data Tracking and Analysis, Operations and Workflows, Complete Student Information Tracking and Reporting, Mobile Applications, Mass Notification Communication, Attendance, User Permissions Management, and much more. Tetricor can literally be implemented to meet your needs exactly as you need them. With powerful tools for training, auditing, permissions controls, simplicity and more you will not only get the system you need but have a successful implementation and usage. It is like getting a custom programmed system tailored for you, but without the hard work, time, and expense. When other systems cannot do what you need, ask us about Tetricor.

SAMSON EQUIPMENT, INC.
Samson has designed and manufactured high quality weight and training equipment to meet the needs of athletic and recreational facilities throughout the U.S. Upon request, Samson can custom design training equipment to meet a specific athletic activity.

Contract # Category Description
2021-16-C1110-ALL  Disinfection and Sanitation, Products and Services

SmartCARE Facility Services, a Division of RoofCARE, is a licensed reseller of Synexis. The Synexis BioDefense system provides Automated and Continual microbial reduction of air and surfaces. This is accomplished through the deployment of two units, Sphere and Sentry. The Sphere is designed for small areas such as a classroom while the Sentry is designed for larger areas with higher ceilings such as gyms and cafeterias. Both units are powered by standard 120 electricity and can be wall mounted or remain portable. Designed to operate 24 hours a day. Using ambient humidity and oxygen naturally present in your environment, the technology creates a safe level of hydrogen peroxide (H2O2) gas, which reduces unwanted microbial contamination in the air and on surfaces.

VHGA is a full-service architectural firm providing feasibility studies, planning, design, construction administration, and FF&E/interior architecture to CES participants. The firm’s 43 years of providing architectural services to a wide range of clients is distinguished by award winning, LEED Gold and Silver Certified projects that meet the needs, goals, budget, and schedule of the client. VHGA designs to CPTED standards for student and campus safety and security, employs Building Information Modeling (BIM) in all its work, and has delivered multiple projects in the CMAR structure. In addition to new construction, VHGA’s expertise includes renovations and additions extending the life of existing structures that require MEP replacements, new roofs and windows, energy efficiency upgrades, life safety code improvements, and the integration of technology. VHGA’s philosophy is “To enhance the quality of life through quality architecture”.
