One Time – Different Needs

Differentiating Gifted Services Within a Common Pull-Out Time

Wednesday, November 11, 2026

8:30– 11:30 AM or 12:00 – 3:00 PM

Presented by Dr. Neily Snook, NBCT - TAP Consultant

Gifted education teachers are often asked to serve students with different areas of giftedness during the same pull-out time. Although students may share a service period, their strengths, needs, and IEP goals may differ significantly. This session will explore practical ways to differentiate gifted services within the realities of school schedules while keeping instruction purposeful, manageable, and aligned with individual student needs.

Topics included in the training:

- Planning for multiple areas of giftedness within one service time
- Connecting instruction to individual IEP goals and student strengths
- Differentiating activities without creating separate lessons for every student
- Using flexible grouping and shared learning experiences effectively
- Balancing scheduling constraints with appropriate gifted services

This training is applicable to general education, special education, and gifted education teachers, instructional coaches, and administrators.

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
