Staying Clear of CAPs

Getting Inclusion Services Right for Students with IEPs

Tuesday, October 27, 2026

8:30 – 10:30 AM or 11:00 AM – 1:00 PM or 1:30 – 3:30 PM

Presented by Dr. Neily Snook, NBCT - TAP Consultant

When students with IEPs receive special education services in the general education classroom, what is written in the IEP must translate into what happens each day. This session helps educators and administrators recognize common gaps in inclusion services, IEP implementation, and documentation. Participants will explore practical ways to strengthen these practices, support students, and help schools avoid corrective action.

Topics included in the training:

- Understanding what inclusion services require in the general education classroom
- Providing services, accommodations, modifications, and support as documented in the IEP
- Clarifying the responsibilities of general and special education staff
- Documenting services and maintaining evidence of IEP implementation
- Recognizing and correcting common practices that can lead to complaints & CAPs

This training is applicable to General, Special, & Gifted Education, and other interested staff.

The sessions are the same. A Survey will be posted in the zoom chat at the end of each presentation.
You must complete the survey to receive a Certificate of Completion.
