CO-TEACHING:

An Approach to Support the Success of "ALL OUR STUDENTS"

ALL DAY Training

Wednesday, April 10, 2019

Presenters: Pat Renteria, Ed. S & Barbara Piper, M.A.

Co-teaching is a service delivery option for providing specialized instruction to students with special needs, as well as general education students, in which two teachers share instructional responsibilities in the classroom.

As a result of this training, participants will have an opportunity to explore:

- * the definition of co-teaching
- * what co-teaching is and is not
- * the challenges and benefits of co-teaching
- * the six approaches to co-teaching
- * collaboration skills to support co-teaching
- * resources to support implementation of co-teaching

This training is applicable to both individual educators considering co-teaching as well as educators who are currently involved in co-teaching settings. Co-Teaching (4/10) & Accommodations (4/11) are separate 1 day trainings and also compliment each other as a 2 day training event!
