VIRTUAL COMPLIMENTARY PROFESSIONAL DEVELOPMENT WORKSHOP VIA  ZOOM

Writing Functional Behavior Assessments & Behavior Intervention Plans

Tuesday, September 13th, 2022
Full day training 8:30 am to 3:30 pm
Presented by TAP Consultant
David D'Antonio, M.A.

This virtual workshop will cover important concepts in writing effective FBAs and BIPs for any environment. We will discuss the rationale for using a functional behavior assessment and behavior intervention plan and how and when to determine when one is needed.

Topics include:

- Identifying and defining the problem behavior, collecting and analyzing data, hypothesizing function and differentiating between a skill and performance deficits.
- Strategies to prevent the problem behavior, teaching replacement behaviors, the use of positive reinforcement, designing a response and crisis plan and monitoring success.

Using a provided case study and the FBA and BIP forms, participants in small breakout-room groups will design an appropriate FBA and BIP. **Be prepared to work!**
