Autism Spectrum Disorders (ASD) Toolbox Series:

Classroom “Fixer-Upper”

Setting your classroom up for success!

Thursday September 14th, 2023

8:30-11:30 AM or 12:00-3:00 PM

Presented by Margaret Wood, MA-CCC-SLP and TAP Consultant

There’s a growing consensus among experts that educating students with autism in specially designed classrooms improve their academic performance and social skills. But how can educators create a classroom suitable for ALL students, including those on the autism spectrum?

There’s no need to take a sledgehammer to your current classroom setup. During this workshop, we will explore ways to maximize the physical space, dividing your classroom into functional areas, utilizing classroom furniture effectively, sensory considerations, classroom setup “Quick Tips” to decrease chaos and increase calm, and more!

A Survey will be posted in the chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
