Presented by Megan Willoughby, M.A., TAP Consultant

As our classrooms continue to become increasingly diverse in both language and ability, many teachers are left wondering how to plan and create supportive environments and lessons that can reach all learners. This presentation will explore the basics of Universal Design for Learning as a means of implementing fully inclusive classrooms.

Topics include:

- ✚ The legal aspects of inclusion for both EL students and students in Special Education
- ✚ UDL Guidelines: Designing lessons for multiple means of Engagement, Representation, and Action and Expression
- ✚ Best practices for using digital UDL tools in the classroom

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
