Presented by David D'Antonio, M.A.

Are your students having difficulty with hallway behavior? Do you have a student moving to Middle or High School next year? Or perhaps you're helping a student ready to move from maximum support to a less restrictive setting. Students with behavioral health concerns need help to successfully negotiate many types of transitions. This training will provide ideas on how to create a concrete plan to maximize successful transitions. Topics include:

- ✚ Designing classroom transitions that minimize problems
- ✚ Teaching and practicing skills needed to meet expectations
- ✚ Sharing relevant information when students are moving to a new setting
- ✚ Using objective criteria to determine student readiness to move to less restrictive settings

The PM session is the same as the AM session. A Survey will be posted in the zoom chat at the end of the presentation. You must complete the survey to receive a Certificate of Completion. You can join the PM session if you miss part of the AM session.
